Hot Wax Painting (Encaustic Wax)

BEGINNERS ONE DAY WORKSHOP

This is your chance to experience the unique world of encaustic wax art in a relaxed and encouraging environment at my beach side studio at Haumoana. We use a mixture of refined natural beeswax and damar resin as our medium which is coloured with dry pigment.

During this 1 day workshop you will be led step by step through the essential techniques of encaustic art, having each demonstrated to you, then performing each step yourself to a point where you will develop a strong understanding of process and what is possible.

MORNING:

- Introduction to safety and tools of the trade.
- Introduction to wax, mediums and paints.
- Preparation of grounds and materials.
- The technique of layering, fusing, blending, collage and mark-making.

AFTERNOON:

- A wander to the beach to collect found materials for embedding (weather permitting).
- The technique of embedding.
- Watch a demonstration of some advanced techniques: shellac burn, texture, PVA glue burn.
- Creating a final piece from your favourite techniques from the morning.

You will create at least 4 of your own experimental works as well as the opportunity to create a final piece on cradled panel to take home for an extra \$20.

COST: \$150

All workshop materials and tea and coffee are provided - bring something for a 'pot luck' lunch.

REGISTER YOUR INTEREST BY USING THE ONLINE FORM

Please Note: Numbers are limited to 6 per workshop, so payment in advance is required to secure your place.
